

K7 - Stainless Steel Polish

Description

K7 - SS Polish is a ready to use polish for use on stainless steel surfaces, which are not used for the preparation of food like refrigerator, freezer doors, trolleys, dishwashing machines etc. It is designed to care outside surfaces of stainless steel equipment, accessories, grills, and stair supports, etc. It protects against water splashes and food stains and leaves surfaces bright and sparkling as new.

Key properties

- The special blend of oils provides protection and leaves a shiny surface.
- Helps protect surfaces by forming a protective film.
- Keep surfaces looking good, with a smooth lustre.
- Resists finger marks and water spotting to maintain a polished appearance for longer.

Use instructions

K7 is a ready to use product and should not be mixed with water.

Directions for use:

K7 is a ready to use product. Spray onto clean cloth or directly onto clean and dry surface and then polish. Use only on non-food contact surfaces. See the product information sheet for further information. It protects against water splashes and food stains and leaves surfaces bright and sparkling as new.
